

Introduction

PCC-50000 Color Touch is a simple yet versatile controller capable of producing speed controllable color changing effects, strobing effects, static colors and random colors. It can deliver millions of colors to about 100 watt of RGB lamps.

Features

1. Color Changing Mode: Ability to control speed of color changing sequence.
2. Strobing Mode: Ability to control speed of strobing during color changing sequence.
3. Static Color Mode: Ability to set to any desired color.
4. Random Color Mode: Ability to control speed of random color flashing.
5. Customizable color changing sequence allowable.

Applications

- Wall Washing
- Architectural Lighting
- Special Effect Lighting

Product Specification

No.	Parameter	Value
1.	Input Voltage	24v DC (customizable)
2.	Power Output	Up to 120 w
3.	Dimension	98mm x 67mm x 28mm
4.	Output Voltage	24v DC
5.	Housing Material	ABS
6.	Color Mode	Standard and customizable

RGB Lamps

1. PCS-51002 RGB Light Strip (3w) – Connect up to 33 units
2. PCF-12000 RGB Flood Lamp (9w) – Connect up to 11 units
3. PCF-14000 RGB Flood Lamp (18w) – Connect up to 5 units
