

# 12 & 36w LED Spotlights

March 05

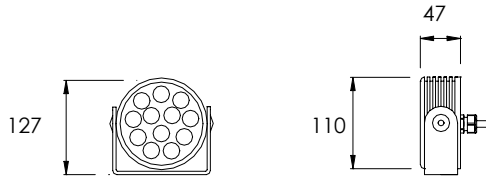

Two multi LED spotlights / floodlights with a choice of beam angles and an IP rating of 67 for interior or exterior use.

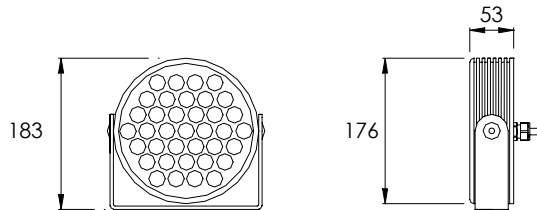

A patented laminated glass cover reduces UV to protect the internal components, whilst the aluminium alloy body is configured to provide effective thermal management of the LEDs.

Great for coloured lighting effects in courtyards, gardens, water features, art work, statues and more general architectural use.

- **IP67**
- **Anodised Aluminium construction**
- **Luxeon™ LEDs fitted**
- **Laminated Glass cover**
- **Single colour or RGB colour change operation with DMX control**
- **Manufactured in the UK**

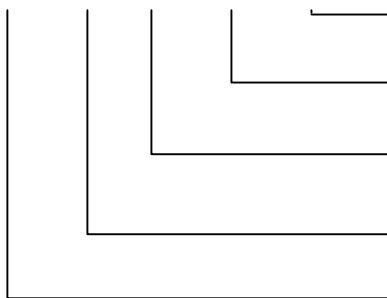

CLFS2740 S
