TORCHES 2005/2006

GPBM Nordic AB proudly presents the catalogue for Torches 2005/2006!

Over the years the development of torches has been very aggressive within our company. LED torches have been introduced as well as LUXEON torches. There have been modifications on handgrips and design has suddenly become a key word for torches. The torches now have better light, are easier to handle and possesses functional features.

Every day life has also had a big impact in our choice of torches. Action, travelling, professional use or just leisure time are some of the situations where a torch could be used.

So please, just relax and find your special area in our new catalogue.

If you have any comments or questions regarding our catalogue or products, please do not hesitate to contact us.

Our torches, just for you.
