

# Warranty

---

Super Vision® International warrants its products to be free from defects in material and/or workmanship, under normal use, conditions and service, for a period of ONE YEAR from the date of original purchase. In the event of a defect in material or workmanship during the warranty period, Super Vision® will repair or replace (at its discretion) its products under the conditions of the Warranty. Super Vision® International will do so at its expense for the materials but not for shipping. This remedy is the sole and exclusive remedy for any and all claims relating to any breach of warranty by Super Vision®. Limitations, exclusions and other rights:

1.) Except as provided herein, Super Vision® makes no other warranties, expressed or implied, including but not limited to the implied warranties of merchantability or fitness for a particular purpose, as all such warranties are expressly disclaimed. Some states do not allow the exclusion of an implied warranty, so the above exclusion may not apply to you.

2.) Super Vision® is not responsible for defects or malfunctions in and/or damage to lighting systems where a sale is specifically made without warranty. In such sales the disclaimers of warranty and liability; set forth above, shall continue to apply.

3.) The Warranty covers normal consumer use and does not cover damage which occurs in shipment or damage or failure which results from alteration, accident, theft, misuse, abuse, abnormal use, negligent installation, improper maintenance or where adequate care has not been taken to prevent damage to the lighting system.

4.) This Warranty gives you specific legal rights, and you may also have other rights which vary from state to state. If you discover a defect or malfunction during the period to which this Warranty applies, write or phone Super Vision® for information on receiving warranty service.

**DANGER**

**RISK OF ELECTRICAL  
SHOCK OR  
ELECTROCUTION**

Always disconnect power to the spa light at the circuit breaker before servicing the light. Failure to do so could result in death or serious injury to the installer, spa users, or others due to electrical shock.

## AGS12 /AGS24 Portable Spa Light

This guide contains important information on installing and using your LED Spa Light. Please read it carefully and save it for future reference.

### Rated Lamp Life

The illumination generated by the LED Spa Light is based on Light Emitting Diodes (LED) whose predicted source life is rated at 100,000 elapsed time hours under normal operating conditions.

[Temperature: -4° to 104°F (-20°C to 40°C), Humidity: 0-95% non-condensing humidity]. This equates to 11.4 years of continuous 24-hour a day usage.

### Safety Precautions

Do not open, alter or tamper with the product. This will void the manufacturer's warranty. Follow all instructions in the user guide, and observe all warnings carefully.

- Do not allow the LED unit to get wet. It is conformal coated to protect it from moisture.
- Do not attempt to service the electronic components yourself. Non-expert handling may damage the product and cause injury to the user.
- Keep the unit dry.
- Handle the LED Spa Light as you would any delicate product. Be careful not to drop the unit.

# Installation AGS12/AGS24 LED Spa Light

**NOTE:** AGS24 LED Spa Light fits most 12V AC wedge-based lighting sockets. AGS24 LED Spa Lights are not for use with spas that have dimming systems or electronic controllers.

## STEP 1

Access the old lamp according to your spa manufacturer's instructions.

## STEP 2

Remove the reflector from the back of the light enclosure. (Fig. 1)

## STEP 3

Remove the old lamp.

## STEP 4

Insert the AGS24 Spa Light into the socket. Make sure both connectors are seated firmly into the socket. (Fig. 2)

## STEP 5

Replace the reflector on the back of the light enclosure.

# Controlling the AGS12/AGS24 LED Spa Light

Use the spa's existing light switch to turn the LED Spa Light on and off.

## CHOOSING EFFECTS

AGS24 LED Spa Lights are pre-programmed with an assortment of lighting effects.

- When you turn AGS24 LED Spa Light off and then on again within five seconds, it advances to the next effect.
- When you turn AGS24 LED Spa Light off and leave it off for more than five seconds, it "remembers" that last effect you selected. The next time you turn on AGS24 LED Spa Light, it will display that same effect.

## DESCRIPTION OF EFFECTS

### 1. White only

**2. Color Change** - Colors transition from color to color, cycling through the color spectrum. Each color cycle take approximately 1 minute.

### 3. Yellow

### 4. Blue

### 5. Orange

### 6. Green

### 7. Hot Pink

### 8. Cyan

### 9. Blue/Green Mix

**10. Party Mode™** - Multiple Colors transition quickly, cycling through the color spectrum.
