# LED Street Light SPECIFICATION

RoHS Compliant  

World-class optoelectronic device manufacturing facility since 1969  
25 million products manufactured daily  
ISO14001 / ISO9001 / TS16949 Certified  
White Licensed

## Introduction

VaOpto's Light Emitting Diode (LED) Street light Series saves energy and lasts a long life.

### Environmentally Conscious

Energy efficient, lead free, and long life means fewer lamp replacements vs. standard high pressure sodium street light.

### Outstanding Energy Efficiency

Compare to standard Incandescent light sources, VaOpto's LED Street light Series are reducing energy consumption by 70%-80%. The lamps' optics concentrates light on the target, diminishing wasted extraneous light and increases the CBCP.

### Long Life = Labor Savings

Delivers at least 70% of initial light output after at last 50,000 hours.

### Various Colors

Cool White (5000-10000K)  
Neutral White (3700-5000K)  
Warm White (2600-3700K)

### Excellent Color Rendering

Cool White: CRI > 70  
Neutral White: CRI > 75  
Warm White: CRI > 80

## Precautions

- LEDs are static sensitive devices. Precautions should be taken to ensure that LEDs are well protected from ESD during handling.
- ESD protection for GaP and AlGaAs based chips is still necessary even though the chips are safe in low static-electric discharge events
- AllInGap, GaN and/or InGaN based chips are STATIC SENSITIVE devices and ESD protection must be taken into consideration in the initial design stages.
- Do not operate LEDs in reverse bias.

## Warranty and Liability Information

- Two years limited warranty.
- The information contained herein is presented only as a guide for the applications of our products.
- No responsibility is assumed by VAOPTO for any infringements of intellectual property or other infringements of the rights of third parties that may result from its use.
- VAOPTO is committed to a process of continuous improvements of the quality and the features of its products and reserves the right to make changes that result in such improvements.
- VAOPTO products are not intended for use in applications where extraordinarily high reliability is required to prevent the loss of human life or where failure could result in bodily injury.
- VAOPTO limits the extent of our liability to the initial component cost and will, in the event of a failure, replace a failed component or refund the purchase price at VAOPTO option.
